She was an ecofeminist hegemonic patriarchal of the world to women and its relationship to the environment condemns. Women in his works in the ecosystem they believe that everything is interconnected . This limiting materialistic in the environment suffering smoking women like earth and is divided into mistreatment of animals and is exploited . Kingsolver's women who are heroes natural world tolerable problems are agents who can be proactive in solving problems . They traditional patriarchal the system representative male Unlike the signs , ecological to the mind has. Kingsolver matter of concern industrialization environmental impact related to pollution consisted of issues.

His The content that emerges from novels is the human Excessive attitude towards Mother Nature – extraction , wrong agriculture practice and removing mountains through natural the world from the risk of abuse It is a warning.
